Bowling Green, KY

Film Lab

How to get your film developed!

Step 1:

Shoot a roll of film, or 10. Once done, head over to www.goodngrainy.photos and click on «send in film» or services in the header menu. Select which service you need and add to cart.

Step 2:

Once all film rolls you want developed are added to your cart, checkout. You can choose local drop-off or shipping if you want to ship your film to me. After checkout, you'll receive a confirmation page and email. Print that page OR write down your order number, email, phone number, name, and address. Then, place your film and order confirmation/information inside a resealable bag.

Step 3:

If you are local, I have a drop box mounted beside my garage that you can drop your bag of film into. (dont worry there's padding at the bottom) If you're not local, or just dont want to drop off, you can also ship your film to me. You'll have to cover the method and cost of getting your film to me.

Shipping & Drop-off address

Good'n Grainy
309 Pirates Cove Lane
Bowling Green, KY 42103
